

NON-ALC SPARKLING WHITE

VINEYARD SOURCING: We source all grapes from within our sustainably farmed vineyard program. For our sparkling white, we selected varietals and regions known for robust aromatic profiles with some natural texture and strong acid backbones.

WINEMAKING: With the end goal of crafting a dealcoholized sparkling wine, we employ meticulous winemaking techniques during the early stages of fermentation to capture the aromatics and achieve an integrated mouthfeel, allowing each lot to reach dryness. The components are then blended together before undergoing spinning cone filtration to remove the alcohol. After filtration, we enhance the flavor profile and mouthfeel by blending in natural flavors, followed by carbonation to a level of 9000 ppm.

TASTING NOTES: Ethereal notes of crisp pear, enchanting florals, and vibrant citrus zest harmonize beautifully, invigorated by tantalizing bubbles and a toasty whisper to tie it all together.

CHEMISTRY:

ALC % v/v	RS g/100mL	FSO2 ppm	pH	TA g/100mL	CO2 ppm
<0.5	2.7	20	3.28	0.61	9000

INGREDIENTS: Dealcoholized White Wine, Wine Grape Concentrate, Natural Flavors, Sulfur Dioxide (To Preserve Freshness).
100% Compliant with Adult Beverage Ingredient Standards
